

## Systems Input/Output Matrix Template

- List all identified systems or sub-systems down the left side of the matrix and again across the top
- Start at the left column and list all the outputs produced by each system or sub-system
- Work across from left to right to note where these outputs will be received as inputs
- Look vertically to be sure all inputs are shown and to see where they come from

	<b>System or Process A</b> <i>(inputs)</i>	<b>System or Process B</b> <i>(inputs)</i>	<b>System or Process C</b> <i>(inputs)</i>
<b>System or Process A</b> <i>(outputs)</i>			
<b>System or Process B</b> <i>(outputs)</i>			
<b>System or Process C</b> <i>(outputs)</i>
